## **Using cost-effective intra-arterial chemotherapy to treat retinoblastoma in Chile.**

Ossandón D, Zanolli M, Pérez V, Zúñiga P, Belmar Á, Varas M, Shields CL.

### **Abstract**

Intra-arterial chemotherapy (IAC) has proved to be an effective treatment for retinoblastoma, but can be very expensive in developing countries. We report 2 patients from Chile in whom IAC resulted in globe salvation. Both patients had their medical care provided by the public health system and had failed standard therapy.
