

# README

## Title

Effect of Intraoral Photobiomodulation on Nutritional Outcomes in Patients Undergoing Hematopoietic Cell Transplantation: A Secondary Analysis of a Randomized Controlled Trial

## Description

This repository contains the anonymized dataset and supporting documentation associated with the manuscript submitted to Nutrition and Cancer.

## Files Included

1. Dataset\_nutri\_paper.csv  
Anonymized participant-level dataset used to reproduce the tables and figure reported in the manuscript.
2. Codebook\_nutri\_paper.pdf  
Description of variables, coding schemes, units, and data structure.
3. README\_nutripaper.pdf  
Repository description and file guide.

## Study Design

Secondary analysis of a randomized controlled trial evaluating the effect of intraoral photobiomodulation on nutritional outcomes in adult patients undergoing hematopoietic cell transplantation.

## Study Setting

Clínica Dávila, Santiago, Chile.

## Data Structure

Each row represents one participant. The dataset includes clinical, anthropometric, nutritional status, dietary intake, nutritional adequacy, and nutritional support variables used in the manuscript.

## Ethics

The original study was approved by the Ethics Committees of Clínica Dávila and Universidad del Desarrollo. All participants provided written informed consent.

## **De-identification**

The dataset has been fully de-identified. No direct personal identifiers are included.

## **Funding**

This work was supported by the National Agency for Research and Development (ANID), Subdirección de Investigación Aplicada, Chile, grant number FONIS SA23I0021.
